**Materials Fee: \$40**

In this class we will play with Setacolor transparent paints and some other type of paint (TBA!). The Setacolor paints are light activated, so you will get some great textures. Anything you can read on mixing colors before class will help you. Watercolor or other painting books would be a good source. I will provide 1.5 fl oz. each of 7 colors of paint, in bottles that you will keep, a stamp making kit, plus 3 yards of fabric, and I strongly recommend you bring **more** fabric! You won't believe the fun you'll have. I will have additional paint and stamp material available for purchase.

## Supply List:

2 buckets for rinse water (1 - 2 gallon)  
10+ rags - old cloth diapers work well  
8 - 10 small plastic containers with watertight lids - big enough to get a hake brush into (@ 3")  
Hake brush – check at an art or craft store  
Several other sizes of brushes, 1/2" - 2", flat or round (buy from art supply or paint store)  
Sponges, different types & shapes  
Any stamps you might have - please mark them with your name and be willing to share!

They'll go under your fabric while painting.
